Emergency Department Capital Campaign Moves Ahead to Phase II

Wayne Ferch, President & CEO

Since the beginning of our campaign last year, we have focused on encouraging our employees, physicians and volunteers to support our efforts to raise funds to help with this important expansion project. Getting support from our own "family" is the most important step in creating a successful fundraising campaign.

We are getting ready to move ahead to the next phase, which will focus on getting more of the community involved with our efforts. We will be working with local business and community leaders to broaden our reach and tell our story. Our need for a larger, more efficient Emergency Department is crucial to our ability to appropriately care for the needs of this community. We believe that our community will understand that and help us with this project.

Construction Update

The deck on the rear of the Wellness Center is being replaced with a new, safer version. The old concrete deck has been removed and then replaced with a new concrete deck and new hand railings. (Photo below.)

The picture above shows the new chiller being placed by a crane. The chiller was transferred from the parking lot just North of the HVAC building over the top of the new enclosure and into place.

The picture below shows the footings being poured. Thirty-seven concrete trucks were lined up to pour more than 330 yards of concrete.

Light Up a Life for Paradise Hospice

The annual Light Up a Life tree lighting event will be held on Tuesday, Dec. 7, 2010 at 7 p.m on the Paradise Hospice House campus located at 1289 Bille Rd. in Paradise. Light Up a Life is a great way to celebrate the holiday season while contributing to a great cause. Light Up a Life is an important campaign to ensure the continual support of Paradise Hospice in the community. Paradise Hospice is committed to providing quality care and support for people in the final stages of life. The Hospice team offers support for the physical, social, psychological and spiritual needs of the patient and the family.

There are several ways to get involved in the Light Up a Life Campaign:

- You may purchase a \$25

luminary to honor or remember the life of someone special. The luminaries will be displayed on the hospice grounds and near the Serenity Garden with a small ornament indicating "in memory of" or "in honor of." The ornament will be sent to the donor after the holidays.

- Donations of \$100 or more will receive a porcelain angel ornament.
- Give a donation at whatever level you choose to participate

Light Up a Life is also about remembering and celebrating loved ones who have passed away. The Light Up a Life ceremony will be held at the Paradise Hospice House, with an opportunity to view the beautifully decorated location. There will be

Christmas carols and light refreshments to welcome the holiday season. Last year over 250 people came for the ceremony joining together in song and prayer. Luminaries will be lit on that evening and will remain lit the entire month of December. Everyone is welcome! We invite you to bring your family and friends for an evening of celebration and reflection.

For more information or to make a donation, call the Feather River Health Foundation at 876-7161.
